# What makes Zunow so superior?

- Best Afocal optics Designer in Japan.
- Zunow also manufactures conversion lenses for Sony, Panasonic, Canon, Nikon and Olympus.
- Product Quality under J.I.S. Standard. (Japanese Industrial Standard)

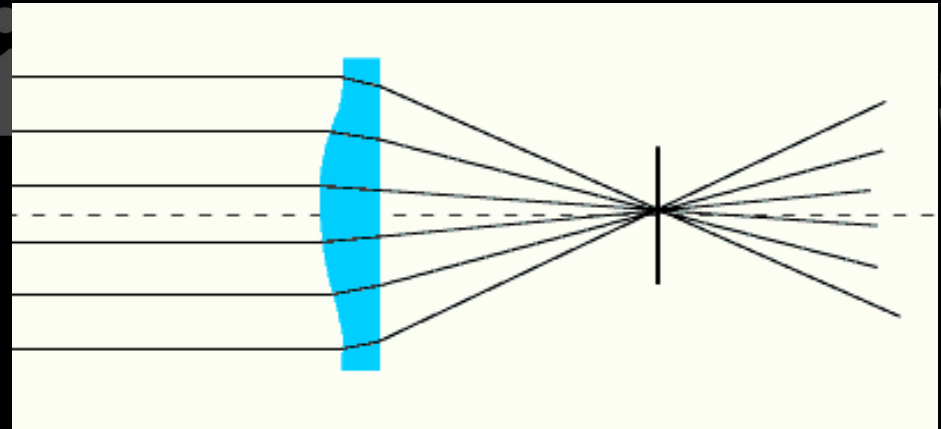

## Wide angle lenses

- The correct calculation for knowing the exact focal length when using a 0.7 converter lens.
- Example  $0.7 \times 28\text{mm} = 19,6\text{mm}$  (35mm equivalent).
- Two types of lenses wide converter and wide attachment.
- Wide converter is zoom-thru.
- Wide attachment has limited zoom or no zoom capabilities.
- Use UV filters on Zunow lenses.

## EXAMPLE

- Wide angle lens for Sony PMW EX1 or EX3 (bayonet mount).
- Aspherical lens element.
- 0.75x conversion.
- Front diameter 98mm, so most mattboxes will fit.
