System FSB 4 / 2 GS AL

Sachtler System FSB 4 aluminium with Fluid Head,
75/2 AL Tripod , Ground Spreader 75 & Bag

SKU: 0371A

When you need quick set up and precise balancing while using a smaller camera, the Sachtler FSB 4 Fluid Head doesn't mean you have to compromise on performance. Speedbalance technology gives you rapid weight compensation for payloads of up to 4 kg, while the snap and go side loading mechanism means mounting handheld cameras and DSLRs can be done from the side of the tripod.

Being able to work quickly and efficiently also means being able to get the perfect shots easily. Once you have balanced your camera, patented Sachtler drag always gives you subtle and smooth movement. Three horizontal and vertical drag settings also help you work intuitively and quickly, while always being sure your gear isn't letting you down. The 75 mm head fitting has a large sliding range of 120 mm, helping to give the flexibility to work in the way that gets you the best results.

Weighing in at just 2.4 kg, this Sachtler dual-extractable aluminum tripod is perfect for ultra-light DV camcorders and DSLR cameras.

Dual-spiked feet add even more stability, no matter what surface you are filming on. The legs can be collapsed when you need to move to a new position, before being released to find the perfect balance when you need them. Supporting a payload of up to 20 kg, the Sachtler tripod 75/2 AL is easy to transport and durable enough to never let you down.

Technical Specifications

Feature	Value
Range	FSB
Pan bar count	1
Payload	0 to 4 kg
Bowl size	75 mm
Weight	5.30 kg
Spreader type	Ground spreader
Material	Aluminium
Transport length	870 mm
Tripod stages	2
Height with spreader	0.58 to 1.73 m
Temperature range	-40 to 60 °C
Tilt range	90° to -75°
Sliding range	120 mm
Interface Compatibility	Sideload
Counterbalance	5 counterbalance steps + 0
Drag	3 + 0 horizontal and vertical drag settings

What's in the box?

- **Ground spreader SP 75**
- **FSB 4**
- **Padded bag DV 75 S**
- **Tripod 75/2 AL**
